

Instructions: phases of the moon flick book

Materials and equipment:

- pencil
- Small note pad or use
- paper (about A6 size)
- stapler

How to make a flicker book:

1. Make up a pad of pages held together with staples
2. Make sure the right hand edge of the pages are flush
3. Start on the last page of your book draw a full moon
4. On the page before it trace your moon but shade in small section on the right hand side (see examples above)
5. Fill up the book by changing your drawing a little each time
6. When you have finished all the pages hold the stapled edge and flick through the pages
7. Watch your moon change

Other ideas & tips:

- If you start on the back page you can trace your previous drawing and help line them up each time
- Draw close to the edge as this helps when you flip your book
- Before drawing think about how the moon changes through the month
