I AM A STAR

My name is Pointek. I am Mean ³ I have to float
around in space but I'd rather not be bumping into
Mars I believe that the red star painted that pesky red
planet red. I like looking at planets even though it isn't
in our orbit that's another thing that makes me sad.
sometimes I have to wear space glasses, to read we
use colours to write different colours different
letters as our star alphabet we use it only in space!

I am a star

My name is Rainbow flash.

My colour is rainbow.

My favourite activity flashing in the night.

Something that make me sad is people that you use flash lights or spot lights because they can't see me up in space flashing the world out. Or people put there flash lights or spot lights in the night sky and point there flash lights or spot lights at me and they see me.
